

When preparing your cover artwork, please provide it as a spread following the guidelines opposite and the diagram below:

We have supplied an Adobe Illustrator template in the folder you downloaded.

Cover PDF Requirements:

- **Spine:** Calculate the width of your spine and overall cover size by entering the specifications of your hardback book on our website: <https://printedeasy.com/products/hardback-books>
- **Extended Cover Size** Add an additional 3mm of printable area to both the top and bottom of the front and back covers to accommodate the larger size of the hardback cover. For example, an A4 cover, typically 210mm x 297mm, would become 210mm x 303mm with the added 3mm at the top and bottom
- **17mm Bleed:** Ensure a 17mm bleed on all edges for the cover wraparound
- **Hinge Area:** Include 6.5mm on each side of the cover edge for the hinges, totalling 13mm
- **Trim Marks:** Include trim marks in your design

The below diagram details the measurements for an A4 (210mm x 297mm) Hardback Book with a 20mm spine.

When preparing your dust jacket artwork, please provide it as a spread following the guidelines opposite and the diagram below:

We have supplied an Adobe Illustrator template in the folder you downloaded.

Dust jacket PDF Requirements:

- **Spine:** Calculate the width of your spine and overall cover size by entering the specifications of your hardback book on our website:
<https://printedeasy.com/products/hardback-books>
- **Extended Cover Size** Add an additional 3mm of printable area to sides of the front and back covers to accommodate the larger size of the hardback cover
For example, an A4 cover, typically 210mm x 297mm, would become 216mm x 303mm with the added 3mm
- **100mm Flaps:** Ensure each side has a 100mm printable area to allow the dustjacket to wrap around the hardback book cover
- **Trim Marks:** Include trim marks in your design

The below diagram details the measurements for an A4 (210mm x 297mm) Hardback Book Dust jacket with a 20mm spine.
